

TOBIE Trail

A walking and bicycling path to connect the communities of Thendara, Old Forge, Big Moose, Inlet & Eagle Bay.

The paved trail begins south of Thendara along State Route 28, turns right at the Train Station and continues along Forge Street, then runs into Route 28 again on the right side of the road. In about a mile, the trail will turn right onto Hemlock Street and then turns left to cross the Moose River. The trail then continues along Railroad Avenue until it turns right onto a dedicated trail behind the school. This trail crosses South Shore Road in front of the Medical Center and goes along the Old Forge Pond lakefront and then behind the Visitor Center at the town beach. Use the covered bridge and then cross Route 28 onto North Street beside Subway. Continue on North Street, which runs into the Snowmobile Trails. These unpaved trails will continue to Big Moose, Eagle Bay and Inlet, and are closed during Hunting Season and Snowmobiling Season (September 14 to April 1).
